Report

No.: 1209-W-22801
Date of arrival: 27-09-2012
Date of report: 23-10-2012

Patient identification:	Dog	Rough Collie	
	Female		* 11.02.06
Date sample was taken:	24-09-2012		
Owner / Animal-ID:	Lahti, Jorma		
Type of sample:	blood		

Parameter	Value	Reference value
-----------	-------	-----------------

Name:	Downmoore Dusk Till Dawn	
Pedigree-ID:	FIN 16159/06	
Chip-ID:	246098100174228	
Tattoo-number:	---	

*rcd2-PRA - PCR OPTIGEN

Result: Genotype: N/N (Free)

Interpretation: The examined dog is homozygote for the normal gene. This dog does not carry the rcd2-PRA-mutation described to be responsible for this kind of PRA, and has an extreme low risk of developing this disease.

This dog will only pass the normal gene on to its offspring.
The result is only valid for the submitted material.

The current result is only valid for the sample submitted to our laboratory. The sender is responsible for the correct information regarding the sample material. The laboratory can not be made liable. Furthermore, any obligation for compensation is limited to the value of the tests performed.

There is a possibility that other mutations may have caused the disease/phenotype. The analysis was performed according to the latest knowledge and technology.
